Vine training system	Pergola Cinque Terre with Guyot system
No. of strains / hectare	6.000
Yield per hectare	5 quintals
Harvest	The whole month of September
First year produced	1982

ORGANOLEPTIC CHARACTERISTICS AND VINIFICATION:

Amber yellow, bright and dense with intriguing topaz reflections. The nose shows fresh notes of candied citrus fruit, nuts and fine hints of aromatic herbs. It has a fine structure on the palate , with pleasant sweet sensations adequately balanced by an excellent zesty rather flavoursome taste and a long, persistent finish. The result of a meticulous selection of grapes left to dry naturally for about two months on racks. Fermentation consists in skin maceration followed by ageing in small oak barrels.

Bottle content 375 ml - contains sulphites
