Vine training system	Pergola Cinque Terre with Guyot system
No. of strains / hectare	6.000
Yield per hectare	85 quintals
Harvest	First half of September
First year produced	1982

ORGANOLEPTIC CHARACTERISTICS AND VINIFICATION:

Intense straw yellow with compelling golden hues, crystal clear and a great consistency. The olfactory analysis is intense and persistent with distinct hints of wild flowers, acacia honey, broom and fine sea breeze marine sensations. Pleasantly balanced palate with soft tones and an excellent zesty and flavoursome component that leaves the finish with delightful brackish and mineral sensations. Pre-fermentative maceration of the skins on the must. White fermentation and ageing on fine lees for 5 months. The vinification and maturation are carried out exclusively in steel barrels.

Bottle content 750 ml - contains sulphites
